Market Value Adjustment (MVA)⁴

If you access more than the 10% annual free withdrawal before the end of the surrender charge period, it may be subject to a surrender charge and an MVA. The MVA is a positive or negative adjustment based on the current interest rate environment at the time of the surrender. The MVA does not apply to: withdrawals after the surrender charge period, 10% annual free withdrawal, the death benefit, annuitized contracts, or contracts issued in selected states.

Contract year	1	2	3	4	5	6
	10%	9%	8%	7%	6%	5%

Allows access to contract value without surrender charge or MVA if certain conditions are met. Please see the Disclosure Statement for necessary criteria and conditions.

Partial surrenders⁶

Beginning in the first contract year, up to 10% of contract value may be withdrawn each contract year without incurring charges.

¹ Purchase of the contract through a qualified plan does not provide any additional tax-deferral benefits beyond those already provided through the plan. If you are purchasing the contract through a plan, you should consider purchasing it for its death benefit, annuity options and other non-tax-related benefits.

² Lincoln reserves the right not to offer the indexed accounts after the surrender charge period.

³ Not available for contracts issued in the state of Washington.

⁴ Please refer to the Examples of Market Value Adjustment (MVA) and Surrender Charge Calculations for more information.

⁵ Waiver of Surrender Charges for Nursing Home Confinement Rider and Waiver of Surrender Charges for Terminal Illness Rider (form AE-119 and form AE-170, respectively, and state variations) may not be available in all states. Nursing Home Rider not available for contracts issued in Massachusetts.

⁶ Withdrawals are subject to income taxes and, if withdrawn before age 59½, a 10% federal tax may apply. In addition, a surrender charge and a Market Value Adjustment will apply during the surrender charge period.

Guaranteed Minimum Cash Surrender Value

If you surrender your contract during the surrender charge period, you will never receive less than the GMCSV. The GMCSV is 87.5% of the total premium(s) paid, less any surrenders and any taxes, accumulated at the guaranteed minimum cash surrender value interest rate. If your actual contract value (less any applicable surrender charge and Market Value Adjustment) exceeds the GMCSV, you would receive this amount instead.

After the surrender charge period the cash surrender value will not be less than the greater of the GMCSV and the guaranteed minimum non-surrender value (GMNSV).

The GMNSV is 100% of the premium(s) paid, less any surrenders and related surrender charges, and any taxes accumulated at the guaranteed minimum non-surrender value interest rate.

Death benefit (prior to annuitization)

Upon the death of a contractowner or annuitant, beneficiaries may receive the greatest of the contract value, the GMNSV or the GMCSV.
